Dear Sirs,

**PCT APPLICATION NO. PCT/ZA03/000190 ENTITLED "BIRD DETERRING
DEVICE AND RELATED CLAMPING MEANS"**

1. We refer to and thank you for the search report (issued on 8 November 2004) for the above application.
2. We have now also received the PCT publication pamphlet for this application and note that pages 11 and 12 containing claims 1 to 16 appear to be missing. Page 11 is indicated as being missing upon filing and page 12 is missing altogether.
3. However, on pages 1 and 2 of the search report, reference is made to claims 1, 3, 4, 5, 13, 15 of the above application. Accordingly, it appears that both pages 11 and 12 were initially received.
4. Furthermore, we did not at any time receive notification that pages 11 and 12 of the claims were missing.
5. Accordingly, please let us know whether or not we should forward pages 11 and 12 to you. Please also confirm that the search report was issued for a

specification including all the pages of the claims.

6. We now look forward to your urgent response.

Yours faithfully

Dear Catherine,

both pages 11 and 12 were present at the time the examiner did the search. The missing one was sent to us by RO/ZA, thus it is official. Our task was executed properly, we don't have to do anything.

It appears that the problem is between RO/ZA and the IB. I copy this note to the responsible Processing Team in Geneva, so that they can contact RO/ZA to obtain the sheets missing from the Record Copy. I also copy it to the representative for their information.

Kind regards, Meilleures salutations, Mit freundlichen Grüßen,

PCT/ISA Helpdesk

Dear colleague,

Could you please have a look to the a.m. application and see APPL letter received on 15.12.05? When we have received the application 1 page of claims was missing (page 11), and of course the application has been published without this page. Then on 11.02.05 we have received this missing page (from Receiving office?).

What shall we do now? Ask WIPO to republish the application?

Thanks a lot in advance for your prompt reply.

Kind regards, Mit freundlichen Grüßen, Salutations,

=====
